

# Momentum Managed Portfolio 4

31 October 2024

For professional advisors only

## INVESTMENT OBJECTIVE & STRATEGY

To achieve inflation beating returns over time from a mix of different asset classes, within a tight risk controlled framework. The Portfolio can invest in a range of asset classes such as equities, bonds, real assets, absolute return funds and cash. Managed Portfolio 4 is designed to target a real return (above inflation) of 4% over the longer term and is aimed at investors who have a low tolerance for risk.

Peer group: Dynamic Planner Risk Profile 4. Performance is calculated on a total return basis in GBP terms. The value of the underlying funds and the income generated from them can go down as well as up, and is not guaranteed. Investors may not get back the original amount invested. The value of investments involving exposure to foreign currencies can be affected by currency exchange rate fluctuations. Past performance is not a guide to future performance.

## MONTHLY COMMENTARY

- In October, the most significant market shift was a substantial rise in bond yields, reversing much of the decline seen in Q3. Following the Fed's 50bps rate cut on September 18th, the 10-year Treasury yield, which had fallen to 3.7%, rose by almost 60bps by the end of October, reaching around 4.3%. This increase continued post-election, nearing 4.5%. Expectations for future rate cuts also changed significantly, with the Fed Funds rate now projected to be 3.78% by the end of 2025, up from 2.78% in mid-September.
- Bonds had a poor month, with global bonds returning -3.4% and UK gilts and UK investment grade corporate bonds returning -2.8% and -1.4% respectively. US Treasuries and US investment grade corporate bonds returned 1.9% and 1.8%, with the dollar rising 3.7% against the pound. Global developed markets returned 2.1% with emerging markets returning -0.4%. Within developed equities, the US was the strongest performer over October, returning 3.2% in GBP terms. Elsewhere, gold rose by 8.5%.
- The US economy continued to show strength, with Q3 GDP growing at an annualised rate of 2.8%. Labour market data was mixed but generally indicated resilience. This economic strength led the Fed to push back against market expectations for aggressive rate cuts.
- Outside the US, the ECB made its second 25bps rate cut of the cycle, responding to a fall in Euro Area CPI to 1.7% in September and ongoing weakness in the manufacturing sector. In Japan, political uncertainty arose after the ruling coalition lost its majority in a snap election. And in the UK, the Labour government's first budget introduced significant tax increases and public spending, raising inflation risks and bond yields.
- Overall, while the US showed economic resilience, high tax and regulatory regimes in Europe and the UK continued to stifle growth. Our investment strategy remains cautiously constructive, with plans to add to risk assets during periods of market weakness.

## PLATFORM AVAILABILITY

## PORTFOLIO RATINGS

Actual performance may vary subject to the timely execution of orders.

Sources: Bloomberg Finance LP, MGIM, unless otherwise stated. <sup>1</sup>Managed Portfolio 4 and Managed Portfolio 4a were merged in November 2017. Historical performance figures prior to the merger in November 2017 have been simulated to represent 50% of Managed Portfolio 4 and 50% of Managed Portfolio 4a. The Managed Portfolios' returns are net of the AMC and underlying fund charges but do not take into account the platform provider's charges. Performance may also differ depending upon which platform is used to access the Momentum Managed Portfolios due to different rebates and fees agreed with the Fund Manager by the Platforms. MGIM commenced management as at February 2016.

## IMPORTANT INFORMATION

Fact sheet asset allocation percentages are in some cases based on the normalised (or benchmark) asset allocations of investee funds, as opposed to the actual exposures of those funds at the date of the fact sheet. This reflects the expected average allocation over time which will result from decisions to hold particular funds.

Nothing contained herein constitutes investment, legal, tax or other advice nor is it to be solely relied on in making an investment or other decision. If you are considering investing in the Momentum Managed Portfolios clients should consult a suitably qualified and approved Financial Adviser. The performance shown represents performance of the Managed Portfolios that are periodically restructured and rebalanced based on the impact of material, economic and market factors that influence MGIM's decision-making on asset allocation. The Managed Portfolios are applied to client accounts by the platform provider but it may take some time for the client accounts to mirror the performance of the Managed Portfolios. It is for this reason that client accounts may not have achieved exactly the same returns as the Managed Portfolios. The performance of the Managed Portfolios is based on the actual performance of the underlying funds included in the portfolios. These performance figures have not been audited by an external body. The value of investments may go down as well as up and the value will depend on fluctuations in financial markets outside MGIM's control, as a result an investor may not get back the amount invested. Past performance is not indicative of future performance and reference to a security is not a recommendation to buy or sell that security.
