

The Harmony Portfolios are a long established range of globally diversified funds designed specifically to provide a cornerstone investment. The range consists of 11 portfolios, each risk profiled and with a clearly defined geographical and currency focus, housed in a Luxembourg UCITS structure with daily pricing and daily liquidity. The Portfolios are managed by Momentum in London. The Portfolios aim to provide the best combination of investments to generate optimal returns relative to each of the 11 mandates' tolerance for risk, via three core capabilities:

Asset Allocation

Investment Selection

Portfolio Construction

The asset allocation process is disciplined, robust and valuation driven, and builds portfolios with true diversification across a wide range of non-correlated assets. 'Best of breed' fund solutions are then used to construct each portfolio. We recognise that no investment house has a monopoly of skill in all disciplines: having an unconstrained choice allows us to choose the most appropriate investment managers for any particular asset class.
