

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

VT Momentum Diversified Balanced (the "Fund")

a sub-fund of VT Momentum Investment Funds (the "Company")

Class A Accumulation Shares (ISIN: GBO0B7W1TW44)

The authorised corporate director of the Fund is Valu-Trac Investment Management Limited

Objectives and Investment Policy

The Fund aims to provide capital growth (generated through an increase in the value of the assets held by the Fund and/or income received from those assets) over rolling 5-year periods, while maintaining a risk profile as defined by the portfolio's annualised ex ante volatility in the range of 6% to 9%.

The Fund aims to meet its investment objective by investing up to 60% of its assets, directly and indirectly, in the shares of companies based in the UK and internationally.

The Fund will also invest at least 30% of its assets, directly and indirectly, in fixed interest securities including government and corporate bonds, and cash, near cash, deposits, money market instruments and money market funds.

The underlying companies in which the Fund will be invested will be in any industry sector and of any size and the Fund will have a low concentration of individual issuers.

The other underlying assets in the portfolio will include real assets (property and infrastructure, indirectly through listed securities) and other diversifying assets (including indirect exposure to gold, alternative/uncorrelated strategies and managed futures strategies).

The Fund will invest in regulated collective investment schemes, including ETFs, and Investment Trusts, which may include funds managed and/or operated by the ACD or Investment Manager.

The Fund may also use exchange traded derivatives including futures and options, as well as forward foreign exchange transactions, in order to reduce risk or cost and/or generate extra income or growth (often referred to as 'efficient portfolio management'). An example would include using such derivatives in place of direct securities temporarily after receipt of a large cash flow to the Fund, to maintain intended asset class exposures in a cost efficient and timely manner. The Fund does not take net short exposures to asset classes and does not use explicit leverage.

At least 60% of the Sub-fund's investments will be in established market currencies (US Dollar, Sterling & Euro).

The Fund is actively managed.

You can buy and sell shares in the Fund on any business day.

Income from the Fund will be added to the value of your investment (i.e. dividend income will be included in the value of your shares).

For full investment objectives and policy details please refer to the prospectus.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area of the table below shows where the Fund ranks in terms of its potential risk and reward based on historical data.

Lower Risk				Higher Risk		
Typically lower risk				Typically higher risk		
1	2	3	4	5	6	7

Historical data may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean "risk free".

The Fund is ranked 4 because weekly historical performance data indicates that average rises and falls in market prices would have occurred historically.

The following risks are material in addition to the risks captured by the indicator above:

- **Counterparty Risk:** The Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Fund.
- **Market Risk:** External factors can cause an entire asset class to decline in value which would result in a decrease in the value of investments.
- **Currency Risk:** As the Fund may invest in overseas securities, movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.
- **Liquidity Risk:** adverse market conditions may affect the ability to sell certain assets when necessary. Reduced liquidity may have a negative impact on the price of assets.
- **Bond Value Risk:** The Fund has exposure to bonds, the prices of which will be impacted by factors including: changes in interest rates, inflation expectations and perceived credit quality. When interest rates rise, bond values generally fall. This risk is generally greater for longer term bonds and for bonds with higher credit quality.

For full details of the Fund's risks, please see the prospectus which may be obtained from the address in 'Practical Information' overleaf.

Charges

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	0.00%
Exit Charge	None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you may pay less and you should speak to your financial advisor about this.

Charges taken from the fund over a year	
Ongoing Charges	1.51%

Charges taken from the fund under specific conditions	
Performance Fee	N/A

The ongoing charges figure is based on expenses and the net asset value as at 12 June 2026. This figure may vary from year to year. It excludes portfolio transaction costs. The Funds annual report for each financial year will include detail on the exact charges made.

You may also be charged a dilution levy on entry to or exit from the Fund, this is to cover costs associated with your transaction.

For more information about charges, please see the prospectus which may be obtained free of charge from the address in 'Practical Information' below. The Funds annual report for each financial year will include detail on the exact charges made.

Past Performance

Past performance is not a guide to future performance.

The past performance in the chart shown opposite is inclusive of tax and charges but excludes the entry charge that may be paid on the purchase of an investment.

The Fund and share class were launched on 5 November 2012.

Performance is calculated in pounds sterling.

On 28 May 2021 the Fund changed its name from MI Momentum Focus 4 to VT Momentum Diversified Balanced. Past performance prior to 28 May 2021 was achieved under the Fund's former name.

Practical Information

The depositary for the Fund is The Bank of New York Mellon.

You can obtain further information about the Fund, copies of the prospectus, annual reports and accounts and half-yearly reports and accounts in English, free of charge, from Valu-Trac Investment Management Limited, Main of Orton, Moray, IV32 7QE.
