Fund performance is calculated on a total return basis, net of all fees and in GBP terms. The value of the underlying funds and the income generated from them can go down as well as up, and is not guaranteed. Investors may not get back the original amount invested. The value of investments involving exposure to foreign currencies can be affected by currency exchange rate fluctuations. Past performance is not a guide to future performance.

MONTHLY COMMENTARY

- Within UK equities, top performers included Burberry Group, Mobico Group, OSB Group and Games Workshop.
- Mobico Group reported a 12% increase in Q3 revenue, with the group on track to achieve an adjusted operating profit of £185-205m for FY24. The company also raised its FY24 cost-saving target to £40m and is advancing its organic deleveraging plans, further enhancing its financial stability.
- Games Workshop shares reacted positively after a trading update exceeded expectations, with forecasted H1 core revenue of over £260m (up from £235.6m last year), and licensing revenue more than doubling to at least £30m. Profit before tax is also expected to reach £120m.
- Burberry Group reported H1 revenue slightly ahead of consensus estimates, and an adjusted operating loss less than forecasted. On a positive note, the group introduced its 'Burberry Forward' plan to boost brand appeal and long-term value creation. Despite Q2 challenges, the company received upgrades from analysts, driven by optimism around its cost-saving initiatives targeting £40m annually.
- OSB Group showed resilience amid mixed Q3 results. While loan originations declined year-on-year, net loans increased by 2% in the first nine months of 2024 to £26.3bn. The company maintained its net interest margin guidance of 230-240bps and saw upgrades from analysts.
- Within Overseas Equities, the Curate Global Sustainable Equity Fund was a key contributor to returns during the month, boosted by a strong rally in US equities driven by the 'Trump trade'. This rally lifted global equity markets higher, keeping them on track for a second consecutive year of double-digit returns, well ahead of bonds.
- Within Specialist Assets, Chrysalis Investments shares rose nearly 13% in November after Klarna, which accounted for 14% of Chrysalis' NAV at the end of September, filed registration documents with the US Securities and Exchange Commission ahead of its anticipated IPO. An eventual IPO could unlock significant value for Chrysalis, supporting its share price recovery.
