Momentum
Managed Portfolio Service

Aimed at professional advisers.

With us, investing is personal

The Momentum Managed Portfolios are designed to give investors of all risk profiles access to discretionary investment strategies through model portfolios suitable to them and their investment goals. Our solutions are structured to provide a sophisticated investment offering that aims to perform strongly in an array of market conditions.

Key features

Momentum's investment specialists work collaboratively to identify and implement ideas based on a wealth of experience

A true multi-asset offering aiming to deliver real returns via access to a broad and diversified investment universe

All Portfolios are independently risk-rated by leading rating agencies and are easily accessible on ten platforms

Outcome-based investing

Managed Portfolios as an outsourced approach could assist your investment processes to deliver outcomes and investor value by:

Aligning with client outcomes

Momentum's outcome-based investment philosophy guides our approach in determining the optimal strategic asset allocation for a particular investment objective. Each Portfolio has been specifically designed to focus on achieving set outcomes and smoothing the journey towards them.

Client communications and reporting

We are able to work with you to create communications and reporting; providing insight into investment decisions and portfolio changes and providing regular reporting for your client engagement.

Efficiency and robustness

We have an experienced and well-resourced team of investment professionals including specialists in fund research, risk management, portfolio construction and trade implementation. Outsourcing these functions to Momentum enhances efficiency within your business.

Thinking commercially and delivering value

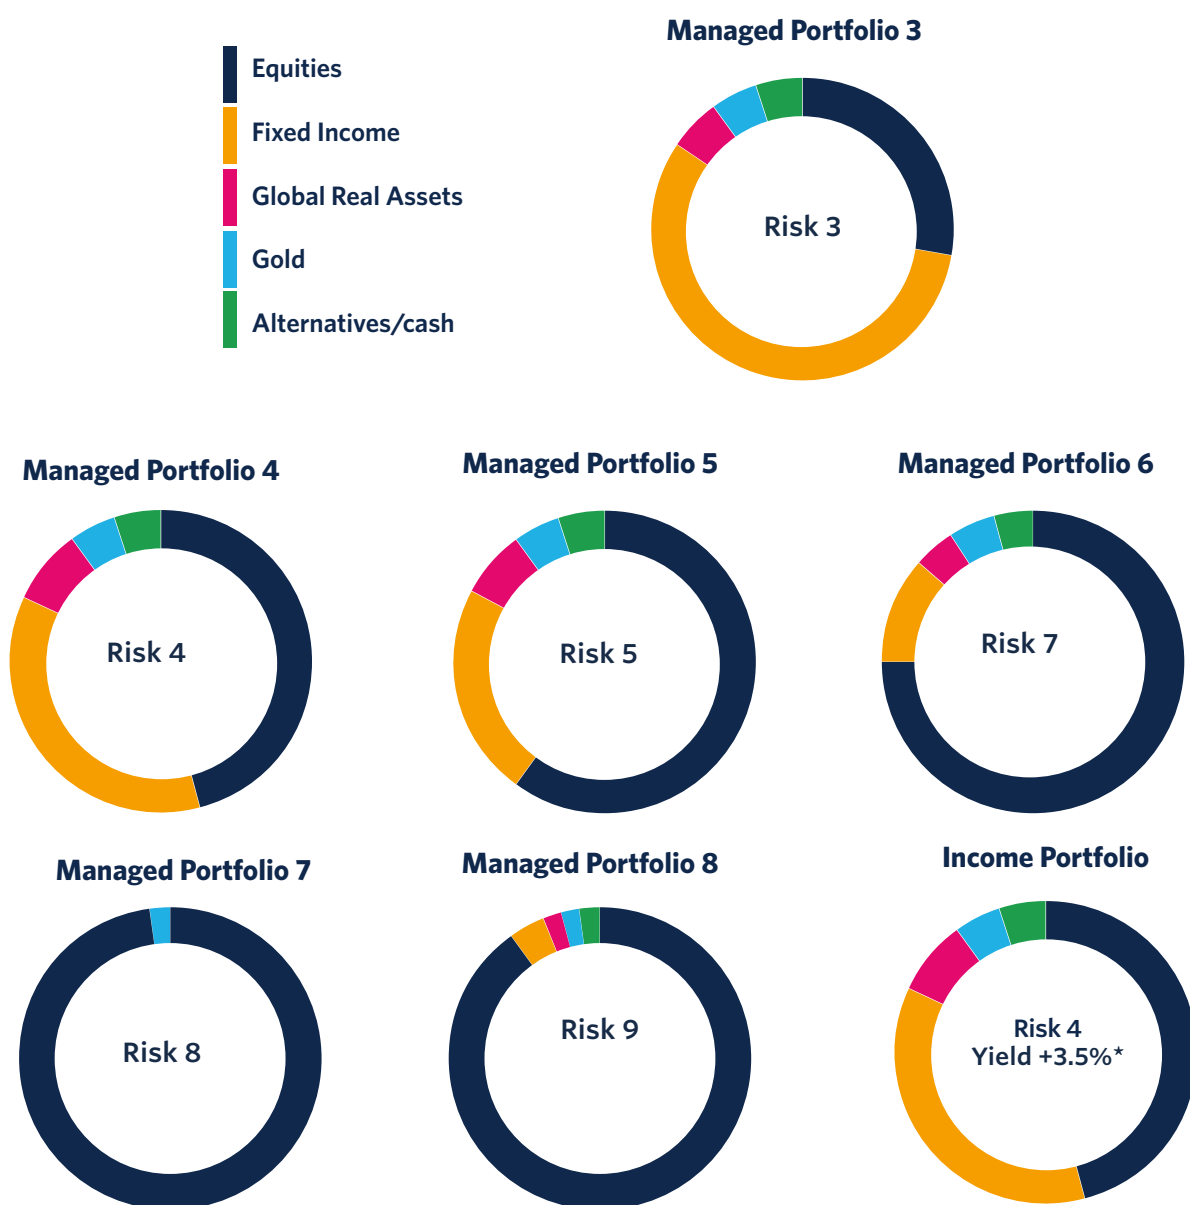

Delivering value for clients isn't just about price; it incorporates service, experience, and ultimately client satisfaction. All of which can be difficult to achieve without scale. Partnering with Momentum could provide broader resources, supporting you and your clients.

The Momentum Managed Portfolio Service

The Momentum Managed Portfolio Service consists of six Managed Portfolios and an Income Portfolio designed to cater for a wide range of risk, return and appetites. The Portfolios are highly diversified and spread risk by investing across regions and asset classes. As well as a wide diversification of assets, we also use a blend of investment styles and approaches that we feel support and are complementary to our outcome-based investment approach.

Our core strength is a detailed, in-depth understanding of multiple asset classes. For each asset class we undertake extensive modelling using proprietary techniques to assess likely returns under different scenarios. This allows us to build robust portfolios that are likely to perform across different economic climates.

The Managed Portfolios asset allocation is actively managed and reflects our views on asset classes, regions and currency.

Allocations subject to change. *The Current Yield is the weighted average yield of the underlying holdings over the past twelve months. This does not include underlying fund charges. The Momentum Managed Portfolios risk rating assigned by Defaqto. Past performance is not indicative of future returns.

We believe that the information contained is from reliable sources, but we do not guarantee the relevance, accuracy or completeness thereof. Unless otherwise provided under UK law, MGIM does not accept liability for irrelevant, inaccurate or incomplete information contained, or for the correctness of opinions expressed. Asset allocation percentages are in some cases based on the normalised (or benchmark) asset allocations of investee funds, as opposed to the actual exposures of those funds at the date of this communication. This reflects the expected average allocation over time which will result from decisions to hold particular funds. The Momentum Managed Portfolios (MPS) are applied to client accounts by the platform provider and it may take some time for the client accounts to mirror the performance of the MPS. It is for this reason that client accounts may not achieve exactly the same returns as the MPS. The performance of the MPS is based on the actual performance of the underlying funds included in the portfolios. The value of investments, and the income derived, may fluctuate and as a result there is no guarantee that the investment objectives of the MPS will be achieved and it is possible that an investor may incur losses, including a loss of the principal invested.
