Tactical views

International and US. (vs. benchmark)

With America's exceptionalism at risk, the high valuation premium is no longer justified.

Small and large.

Now it's time for smaller companies to shine, benefitting from AI and broadening earnings growth.

Value and growth.

When markets are priced for perfection, valuation discipline is a safety net.

Defensive and aggressive.

After a strong bull run, defensive stocks trade at steep discount to fair value.
